Knowlton Technologies hires Roy McAdam

WATERTOWN, NEW YORK – Knowlton Technologies is pleased to announce the addition of Roy McAdam as Information Technology Manager. Roy has a Bachelor's Degree in Economics/ Business from Hobart College.

He has over 15 years of progressive experience in project management in the information technology field. He comes to Knowlton from St. Lawrence Restoration where he was working in IT/Business Administration. Prior to that, Roy spent fifteen years working in IT/IS project management. Over those fifteen years he held positions such as MIS Director for Pittston Coal Management Company, Senior Manager of Consulting for Price Waterhouse Coopers, and Systems Analyst for the Federal Bureau of Investigation.

Roy will be responsible for leading the IT Team, recommending, developing, and executing information technology strategies and tactics that will contribute to the overall success of Knowlton.

In continuous operation since 1808, Knowlton Technologies has been a leader in the Specialty Paper Industry for almost 200 years. The company focuses on accelerated design, proto-typing and manufacture of wet-laid composite structures. Knowlton Technologies manufacturing capabilities include converting media for lightweight, high-strength structural veils, shells and panels, pre-pregs, high energy friction media for wet and dry brake, clutch / drive train, filtration media for air and fluid, absorbent base for bibulous, and lab testing papers.
